

# CW-5500

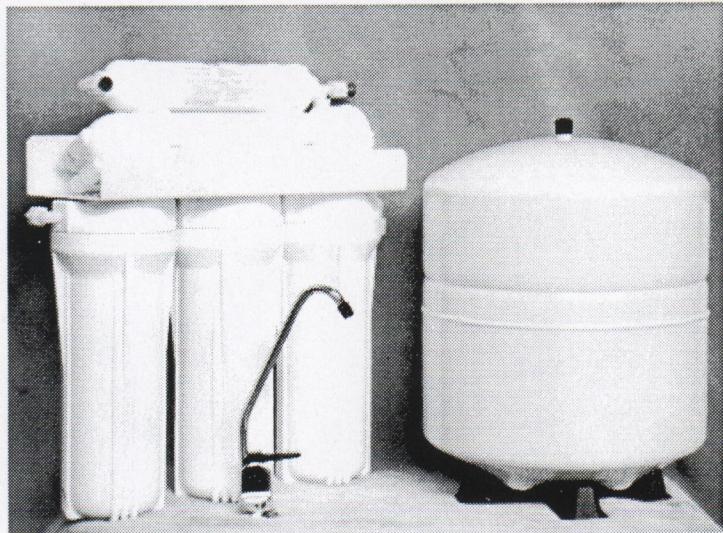

## Clean, great tasting water at your fingertips.

Reverse osmosis processes water at the molecular level. By squeezing ordinary tap water against a special membrane, pure water molecules are separated from impurities. These impurities are automatically rinsed down the drain leaving only clean great tasting water.

## Ideal for low sodium diets!

The CW5500 removes over 90% of sodium salts from tap water.

### Nominal Rejection Rates for typical R/O units

Aluminum .....	96-98
Arsenic .....	94-96
Bacteria .....	99+
Barium .....	96-98
Cadmium .....	95-97
Calcium .....	94-97
Chlorine .....	90-95
Chloride .....	90-95
Copper .....	96-98
Cyanide .....	90-95
Fluoride .....	93-95

Because coffee and tea are 99% water, they are no better than the water which they are made. Imagine better tasting coffee, tea and clearer ice cubes. Your pets and plants will love it too.

## Specifications

System Capacity .....	50 GPD.
Tank Capacity .....	4 gal.
Recovery .....	20-25%.
Rejections .....	90% min.
Pre-Filter .....	spun poly
Pre-Filter .....	GAC
Pre-Filter .....	carbon block
Post Filter .....	in-lineGAC
Membrane .....	TFC
TDS .....	2000p.p.m. max.
Feed Pressure .....	40-100psi.
Feed Water PH .....	3-11
Water Temperature .....	40-80F.
Chrome Faucet .....	Long Reach

Distributed by FSHS, Inc. in St. Petersburg, Florida, U.S.A.

Not intended for microbiologically unsafe or non potable water.

Hardness .....	90-95
Iron .....	97-98
