

PuRoMax™

When it has to be Pure take it to the Max

The quality of drinking water is on everyone's mind today.

Bottled water sales have skyrocketed. Bottled water is expensive, inconvenient and of questionable quality. How do you get quality water from your own refrigerator and ice maker? How do you get quality water without breaking the bank or your back?

PuROmax Delivers!

Quality Water that exceeds most bottled water quality!

Quality Water for only pennies a gallon.

Quality Water right at your fingertips.

Quality Water for ice and prepared beverages.

The PuROMax™ line removes over 90% of sodium salts from tap water.

PC-4

PC5

Reverse osmosis processes water at the molecular level.

By squeezing ordinary tap water against a special membrane, pure water molecules are separated from impurities. These impurities are automatically rinsed down the drain leaving only clean great tasting water.

Nominal Rejection Rates for typical R/O units

Aluminum	96-98%	Flouride	93-95%
Arsenic	94-96%	Lead	96-98%
Bacteria	99+%	Magnesium	95-98%
Barium	96-98%	Manganese	94-96%
Cadmium.....	95-97%	Mercury	95-97%
Calcium	94-97%	Nitrate	92-95%
Chlorine	90-95%	Phosphate	97-98%
Chloride	90-95%	Silver	95-97%
Copper	96-98%	Sodium	94-98%
Cyanide	90-95%	Zinc	96-98%

Because coffee and tea are 99% water, they are no better than the water with which they are made. The PuROMax unit delivers great tasting coffee, tea and clearer ice. Your pets and plants will love it too.
